Charges Scheme

and

Scale of Other Charges

2010/2011

The following tables summarise our main charges for water, sewerage and trade effluent services and take effect from 1 April 2010.

All standing and fixed charges are for the year 1 April 2010 to 31 March 2011.

The annual rateable value portion of unmeasured bills is calculated by multiplying the rateable value of the property, as shown on the bill, by the relevant rateable value charge.

For measured bills, volume related charges are applied to each cubic metre of water consumed and sewage discharged during the year 1 April 2010 to 31 March 2011.

Please see our Charges Scheme and Scale of Other Charges 2010/11 for fuller details of our charges from 1 April 2010.
