7. Further information

Bulk supply and discharge tariffs

The bulk supply/discharge tariff we provide will be based on the information you submit in this form and will be set for the charging year or period when the information is provided.

Price terms are subject to change, at least annually, as changes are made to our underlying wholesale charges. Prices set within our standard bulk supply/discharge agreements are not fixed.

Infrastructure charges, credits and incentives

The standard total infrastructure charge is **£300** per household property connected, based on an estimated water usage of 125 litres per person per day and surface water drainage to the public sewer network.

We collect infrastructure charges from NAVs only for the services they provide to household customers. For example, if a NAV serves the water network but not the sewerage network, we'll collect the water infrastructure charge from the NAV and collect the sewerage infrastructure charge directly from the developer.

To promote environmental protection, we offer a series of discounts and incentives for water efficiency and sustainable drainage. We can also apply a discount to your infrastructure charges if there has previously been a billable account on the site/address within the last 5 years.

For a full breakdown of our infrastructure charges and incentives, please see section 4 of our New Connection Charging Arrangements 2022/2023: yorkshirewater.com/developers/developer-services-charges

Sustainable drainage systems (SuDS)

Requirement H3 of the Building Regulations 2010 sets out a priority order for methods of surface water disposal: 1. discharge to soakaway, 2. discharge to infiltration system, 3. discharge to watercourse. We need you to provide evidence that you've considered these alternative means of surface water disposal before agreeing any point of discharge to the public sewer.

8. Declaration

I request that Yorkshire Water process my application based on the information I have provided and confirm all information is correct to the best of my knowledge.

I agree that Yorkshire Water may use the supporting information provided for any purpose connected with this application and with the company's statutory Sewerage and Water undertakings, including sharing information with its service partner.

I am applying as the applicant or their representative and, by doing so, agree that I will be liable for the payment of any cost associated with this application.
