Dear Ofwat,

Response to the draft determination of Yorkshire Water's in-period outcome delivery incentives for 2022/23

Thank you for providing an opportunity to comment on the draft determination for the 2022-23 outcome delivery incentives (ODIs). In particular, we have noted and agree with the comments you have made and the actions you have proposed on low pressure and sewer collapses. We note and agree with the final CM_eX and DM_eX calculations for 2022-23. We thank you for the adjustment made to Surface Water Management.

We maintain our position on requesting a correction to the DM_eX penalty payment for 2020-21. We are currently evaluating any additional evidence we can submit to support this position, and would welcome a discussion regarding how we can meet Ofwat's requirements.

We have considered the in-period ODI draft determination carefully and overall Yorkshire Water accepts the draft determination as published by Ofwat.

Yours faithfully,
