# 1. Board Assurance Statement

# Indicative wholesale charges scheme 2021-2022 board assurance statement

**In making this assurance statement, the Board has considered the requirements set out by Ofwat in its Wholesale Charging Rules, published in December 2018, and confirms that, to the best of its knowledge, having made all due inquiries and based on sources of evidence, that:**

- a) the company complies with its legal obligations relating to the indicative Wholesale Charges it has published;*
- b) the Board has assessed the effects of the new charges on water supply and sewerage licensees (as a whole or in groups) who are retailing wholesale services and on customers occupying Eligible Premises (as a whole or in groups) and approves the impact assessments and handling strategies developed in instances where bill increases for licensees (as a whole or in groups) who are retailing wholesale services and on customers occupying Eligible Premises (as a whole or in groups) exceed 5%;*
- c) the company has appropriate systems and processes in place (including up-to-date models and data) to make sure that the information published about its indicative Wholesale Charges is accurate;*
- d) the company has consulted with relevant stakeholders in a timely and effective manner on its indicative Wholesale Charges;*

The Board would like to highlight the impact of the timings of the ongoing Competition and Market Authority (CMA) redetermination of our Price Review (PR19) Final Determination. The findings from this process should be published by 17 December 2020 to allow for the final Wholesale Charges published in January to reflect the outcome of this process.

We have set our indicative Wholesale Charges using a reasonable expectation of the allowed revenues that we will receive. We have reported a range of tariffs within our indicative Wholesale Charges 2021-22, based on the overall revenues set in the Final Determination and the revenues based on the CMA provisional findings published 29 September 2020.

The CMA provisional findings did not provide an annual breakdown of the revenue allowances, however indicated an overall average bill of £379 at 2017-18 CPIH average. We have assumed the revenue controls in 2021-22 will achieve this average bill.

In addition to the CMA provisional findings, the Board would like to highlight the ongoing Covid-19 situation, the impacts of which will not be fully understood in the short term. We have included assumptions within our forecasts based on the best information available to date with regards to customer and consumption forecasts.

After taking the considerations noted above, we anticipate that the final Wholesale Charges will differ by more than an indexation variance to the indicative Wholesale Charges.

## Indicative wholesale charges scheme 2021-2022 board assurance statement

### Signed by Yorkshire Water Services Limited Board of Directors

The Board owns and is accountable for the development of the indicative Wholesale Charges document. The indicative Wholesale Charges document and this supporting assurance statement was approved collectively by the Board in October 2020.

# 3. About this Document

# Indicative wholesale charges 2021-2022

## About this document

This document sets out a summary of the indicative primary Wholesale Charges for 2021-2022 of Yorkshire Water Services Limited (Yorkshire Water), made in line with the Wholesale Charging Rules issued by Ofwat under sections 66E and 117I of the Water Industry Act 1991.

We have set our indicative Wholesale Charges using a reasonable expectation of the allowed revenues that we will receive. We have reported a range of tariffs within our indicative Wholesale Charges 2021-22, based on the overall revenues set in the Final Determination and the revenues based on the CMA provisional findings published 29 September 2020.

The CMA provisional findings did not provide an annual breakdown of the revenue allowances, however indicated an overall average bill of £379 at 2017-18 CPIH average. We have assumed the revenue controls in 2021-22 will achieve this average bill.

In addition to the CMA provisional findings, we would like to highlight the ongoing Covid-19 situation, the impacts of which will not be fully understood in the short term. We have included assumptions within our forecasts based on the best information available to date with regards to customer and consumption forecasts.

After taking the considerations noted above, we anticipate that the final Wholesale Charges will differ by more than an indexation variance to the indicative Wholesale Charges.

The indicative Wholesale Charges scheme is to be used in conjunction with the codes:

[mosl.co.uk/market-codes](https://mosl.co.uk/market-codes)

Please refer to the 'Wholesale Charges 2020-21' for interpretations, terms and conditions.

[yorkshirewater.com/business/wholesale-charges](https://yorkshirewater.com/business/wholesale-charges)

This document contains our signed Board Assurance Statement. The Board Assurance Statement was signed following our assurance of the process in calculating the Charges.

- a. All Charges contained within this document are subject to the addition of any VAT chargeable per the Wholesale Retail Code.
- b. Final Wholesale Charges 2021-2022 will be published in January 2021.

# 4. Non-household Indicative Wholesale Charges 2021-2022

## Non-household indicative wholesale charges 2021-2022

### Yorkshire Water indicative water charges (excluding York Waterworks).

Description	Units	2021-22 Indicative wholesale non-household charges	CMOS Tariff code	CMOS Tariff name	CMOS Tariff report name
<b>Unmeasured non-household</b>					
Rateable value charge	p/£RV	161.01 - 168.53	UWVYWS	Unmeasured Water	UWRVPoundage
Fixed charge (low consumption)	£	42.00 - 43.81	UWVYWS	Unmeasured Water	UWFixedCharge
<b>Assessed non-household</b>
