Date: 29 October 2025 16:22:00

Reference Number: **EIR**

Dear

We refer to your request for information submitted to Yorkshire Water dated 9 October 2025 which is below.

"I would therefore be grateful if you could provide the following information:

- 1. The number of SuDS that have been adopted by your company under the Section 104 WIA process since the introduction of the DCG (April 2020 onwards).*
- 2. If applicable, the number of SuDS that had been adopted under the Section 104 process prior to the DCG (i.e. before April 2020).*
- 3. The number of SuDS currently in your company's asset inventory that were delivered through other delivery mechanisms, such as through your capital programme."*

On the 9 October 2025 we wrote to request clarification:

"We are current unable to respond to your request as we required additional clarification as to what information you would like to receive. Please can you clarify the following point:

Can you provide a timeframe for the period you require the information before 2020, for example, do you require this covers 2015-2020?

Please can you provide the requested clarification at the earliest opportunity, we are unable to progress your request until we receive your clarification."

You responded on the 9 October to provide the following clarification:

"Yes for the information before 2020, please provide the data for the period 2015 to 2020, as it how many SuDS assets were in in your asset inventory in that time period."

Please find attached the data which you have requested:

Category	Pre-DCG (2015-2020)	Post-DCG (April 2020 onwards)
SuDS adopted via Section 104 process	1	10
SuDS delivered and/or acquired through capital programme / AMP process	0	SuDS have been delivered as part of Partnerships such as Living With Water but operation and maintenance is carried out by Local Authority
Total SuDS in your asset inventory	40	50

The Total SuDS includes 15 that were acquired at Privatisation and 24 acquired through Developer Service Section 102/104 between privatisation and April 2015

Any that are currently progressing through our Section 104 process and have not been adopted yet are not included in the table above.

In AMP7 a number of SuDS were constructed in partnership with other bodies such as Living With Water. In these projects Yorkshire Water constructed the SuDS and the Local Authority took responsibility for operating and maintenance.

We trust that the provision of this data satisfies your request. In accordance with the Environmental Information Regulations 2004, if you are not satisfied with this reply to your request, you can ask for an internal review. A request for an internal review must be submitted within 40 working days by contacting the Data Protection Team.

Thank you for contacting Yorkshire Water.

Yours sincerely,

Data Protection Team
