Board Assurance Statement

YORKSHIRE WATER SERVICES LIMITED

INDICATIVE WHOLESALE CHARGES 2020-21

BOARD ASSURANCE STATEMENT

In making this assurance statement, the Board has considered the requirements set out by Ofwat in its Wholesale Charging Rules, published in December 2018 and confirms that, to the best of its knowledge, having made all due inquiries and based on sources of evidence, that:

- a. the company complies with its legal obligations relating to the indicative Wholesale Charges it has published;
- b. the Board has assessed the effects of the new charges on water supply and sewerage licensees (as a whole or in groups) who are retailing wholesale services and on customers occupying Eligible Premises (as a whole or in groups) and approves the impact assessments and handling strategies developed in instances where bill increases for licensees (as a whole or in groups) who are retailing wholesale services and on customers occupying Eligible Premises (as a whole or in groups) exceed 5%;
- c. the company has appropriate systems and processes in place (including up-to-date models and data) to make sure that the information published about its indicative Wholesale Charges is accurate;
- d. the company has consulted with relevant stakeholders in a timely and effective manner on its indicative Wholesale Charges.

The Board would like to highlight the impact of the timings of the 2019 Price Review (PR19), which will confirm our wholesale revenue allowances in the Final Determination (FD). As the FD is not published until December 2019, we have set our indicative Wholesale Charges using a reasonable expectation of the allowed revenues that we will receive. We have reported a range of tariffs within our indicative wholesale charges 2020-21, based on the overall revenues set in the Draft Determination (DD) and the revenues proposed in our subsequent DD representations. We anticipate that the final Wholesale Charges will differ by more than an indexation variance to the indicative Wholesale Charges.

The Board owns and is accountable for the development of the indicative Wholesale Charges document. The indicative Wholesale Charges document and this supporting assurance statement was approved collectively by the Board in October 2019.

We have reported a range of tariffs within our indicative wholesale charges 2020-21, based on the overall revenues set in the Draft Determination (DD) and the revenues proposed in our subsequent DD representations.
