Call us on

0800 138 78 78

**If there are other ways you need
us to help (that we've not listed),
please let us know and we'll do our
best to provide what you need.**

Keeping you safe and secure

In the past, people have pretended to be us to trick customers. To make sure you're always confident it's us knocking at your door, we recommend you:

- Set up a free security password so you can confirm it's a real Yorkshire Water employee or partner
- Always ask for proof of identity (*All Yorkshire Water colleagues and partners carry photo ID cards*).

If in doubt, give us a call on 0800 138 78 78 straight away to check the employee number printed on their card.

Our Priority Services Register offers extra help

It's free and makes life easier in many ways

- We'll make understanding bills and water meters simpler
- Offer help with paying your bill
- Provide a temporary water supply if yours is interrupted
- Protect you from bogus callers.

This is available to everyone but may be of most use if you have, for example:

- Limited mobility, or can't leave your home
- A serious illness, a mental health condition or a dialysis patient
- Have sight, speech or hearing difficulties
- Have learning difficulties or dementia
- Are a new parent or with children under 5
- Difficulties paying your bill.

A million customers could benefit from being on our Priority Services Register – are you one of them?

Home dialysis or medically dependant on water

We understand any affect to your water supply is critical. We'll contact you before any works start that may affect you and, if necessary, ensure you have access to the water supply.

Serious illness

We know getting priority contact in a water supply interruption, bottled water delivery and a priority response for some incidents is critical to your health.

Children under 5

If there's a problem with your water supply, we'll contact you to see if you need bottled water delivering as a priority. It's safe for making baby formula too.

Over 65's

Mobility challenges, bad weather or being at home more may mean that getting bottled water delivered, having a nominee or getting bills in large print can make things easier.

British Sign Language user or hearing impaired

The Priority Services Register lets us know if you'd prefer to use InterpretersLive! or 2 way texting.

Blind or partially sighted

We can send you large print, Braille or audio copies of your bill. We're also more than happy to call you.

Help with your water supply

Sometimes we may need to interrupt your water supply for essential works, but don't worry, we'll let you know before we go ahead.

We can offer extra help to make things easier, like providing you with bottled water.

Help reading letters from us

We can send your letters and bills in the easiest format for you such as in large print, in Braille, on a CD or over the phone.

We can also send your letters and bills to a nominated person.

Nominee

You can add a nominee who we can contact on your behalf; this could be your carer, or a family member or friend to help look after your account.

Help if you have a water meter

If you want to understand your water usage better, let us help. We may be able to increase your readings to every quarter.

If you're struggling to take your own meter reading, don't worry, we may be able to do it for you.

If you'd like to move your meter to a more convenient position, we'll let you know if it's possible and if we can contribute to the cost.

Help paying your bill

We don't want anyone to worry about paying for the water they need. If you're struggling to pay, there's immediate short-term and longer-term schemes you can apply for.
