Date: 17 July 2026 13:37:00

Reference Number: **EIR**

Dear

We refer to your request for Environmental information submitted to Yorkshire Water dated on 19 June for information regarding:

"I would like to request the monthly domestic water consumption at the LSOA level consisting of: LSOA code, number of metres in the LSOA and water consumption in the LSOA for 2020 until the most recent data available. Similar to what is available on the stream data portal."

In our acknowledgement to you on the 22 June, we confirmed that for the years 2022-2025, the information you have requested is already available in the public domain:

- [Stream - Portal](#): titled Yorkshire Water Domestic consumption, followed by the year at the end of each file.

For the years 2020/2021, the Data Protection Team has engaged with the relevant business areas and established that Yorkshire Water does not hold the requested information in the LSOA format specified in the request. While some underlying data may exist, the information is not held in the requested format and would require the creation of the data in order to

produce an LSOA-level dataset. Under Regulation 12(4)(a) of the Environmental Information Regulations 2004, a public authority may refuse to disclose information to the extent that it does not hold that information when the request is received. On this basis, the requested information is not held by Yorkshire Water in the form requested.

We trust that the provision of this data satisfies your request. In accordance with the Environmental Information Regulations 2004, if you are not satisfied with this reply to your request you can ask for an internal review. A request for an internal review must be submitted within 40 working days by contacting the Data Protection Team.

Thank you for contacting Yorkshire Water.

Yours sincerely,

Data Protection Team
