This form is for requesting quotes for service connections to be carried out by Yorkshire Water for a new main scheme. These connections can be carried out on or off site.

There is an admin fee for this request of £209 + £41.80 (VAT) = **£250.80** (charged per request, not per plot), which will be invoiced to you shortly after we issue your service connection quotes.

We'll issue your service connection quotes within **28 days** of receiving your fully completed request form.

The information you provide will be used solely in accordance with Yorkshire Water's [Privacy Policy](#). Please be aware, we may contact you to seek feedback on your experience with this service.

If you're filling out a paper copy, please complete in **BLOCK CAPITALS** using blue or black ink.

What's the latest version of the mains scheme design (version number)?

- | | | |
|---|-----|----|
| 1. The water main these service connections are being made to is live or has been requested to be installed already (we will not be able to issue any quotes if this is not the case). | Yes | No |
| 2. The quotes will be paid, and the work carried out within 6 months (this will eliminate the need for a re-quote to be issued, which has a fee attached to it and takes 28 days to process). | Yes | No |
| 3. You have checked the most recent version of the mains design and have listed the correct details required below as per that design. | Yes | No |

If you're requesting a quote for a manifold connection and you'd like us to supply the pre-chlorinated pipe between the manifold and the new water main, please specify below which plots this relates to and we will add this to your quote:

4. Environmental incentive

As part of our environmental incentive scheme, a £20 environmental component fee will be charged for every household premises (house or flat) connecting to our water network. If you're developing houses or flats with water-efficient fixtures and fittings, you may be able to qualify for a **£200 environmental incentive payment** (in effect, a net payment of £180) per each eligible household property.

To qualify, all water fixtures and fittings installed in the household premises must not exceed the maximum consumption levels set out in the table below:

Water fittings	Maximum consumption	
WC	4 litres full flush / 2.6 litres dual flush	When using this table to assess water efficiency, the premises must have WC, shower and/or bath, basin taps and sink taps water fittings. If more than one of a particular type of fitting is installed, each must comply with the relevant criterion. Flow restrictors may be installed to ensure compliance.
Shower	7 litres per minute	
Bath	170 litres total capacity	The efficiency of dishwashers and washing machines will only be assessed if installed by the developer.
Basin taps	5 litres per minute	
Sink taps	6 litres per minute	You'll be able to claim your payment once the relevant connections have been made, provided you can supply photos of a sample of fixtures and fittings you've installed along with the manufacturer's product specifications.
Dishwasher	1 litre per place setting	
Washing machine	6 litres per kilogram	

For more information on how to claim your environmental incentive payment, please visit our [environmental incentives webpage](#).

You must notify us of your intent to claim the environmental incentive payment by answering the questions below – we cannot accept retrospective claims without prior notification.
